DETAILED ACTION

Allowable Subject Matter

Claims 15,16,19-33 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art does not teach a maintenance contract system or method for elevators with a load-predicting database and load-predicting unit to predict the load on the elevator and using this information to determine a best maintenance plan.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US PAT 6,110,214 to Klimasauskas, Klimasauskas discloses an analyzer for optimizing maintenance operations using a computer but does not teach a load predicting unit that uses a load predicting database to predict the load of the elevator, US PAT 6,192,325 to Piety et al., Piety et al. disclose a method for establishing a predictive maintenance database for maintaining equipment but does not teach a load predicting unit that uses a load predicting database to predict the load of the elevator, Japanese Patent JP 10059641 A to Hosaka et al., (note, the information
